

Set in the wilds of the Iron Kingdoms, HORDES is WARMACHINE's feral twin. In this award-winning, fast-paced, 30mm tabletop miniatures game, players jump into the action controlling powerful battle-wizards known as warlocks. Warlocks are formidable combatants in their own right, but their true strength is drawn from their synergy with packs of savage warbeasts that allow them to contend on equal footing with the greatest modern armies of the Iron Kingdoms. Players collect, assemble, and paint fantastically detailed models representing the varied warriors, minions, and beasts in their hordes.
